

Wireless NAS / PS Router

Integrated 2 Ports NAS / Print Server

✓ RoHS Compliant

IP Sharing

The NAT/NAPT function lets you share the broadband connection to all the Intranet users (up to 253 users). It also provides virtual server and virtual DMZ functions to let your internal servers be accessed from the Internet.

Wireless Access Point (4dBi antenna)

The Wireless access point function can let your IEEE 802.11g/b wireless client devices access the Intranet and Internet through this router and provide higher throughput and better coverage than normal 802.11g/b.

Supports Network Attached Storage (NAS) via USB ports

NAS supports following protocols: Windows File Sharing, FTP File Sharing, HTTP File Sharing (WebDAV-http upload), APPLE File Sharing.

Supports Peer-to-Peer Printing

Supports Peer-to-Peer printing. LAN clients can connect directly with the print server to execute printing jobs (Peer-to-Peer printing)

Provides Completed Printing Methods

The print server provides LPR and IPP printing method. You can choose the best printing method according to your environment. Please check the printers compatibility list in our web site

Web Configuration

Configure the router through the friendly Web user interface with a browser.
